

Appendix 8

Willand Community Composting Scheme

We are a Green Garden Waste Composting site for the residents of Willand, run by Volunteers and open on Wednesdays & Sundays 10am to 12noon.

The site opened to residents in April 2003.

We accept fresh grass & hedge clippings, and prunings that can be cut with secateurs up to 1 inch diameter, flowers, vegetables & plants. Further information is displayed in notices regarding garden waste on the fence.

Our financial year runs from 1st April, and since 1st April 2023 to date we have sieved 30.42 tonnes of waste, and sold 505 25kg bags of compost.

You are welcome to pop into the site when open to chat with our Composting Volunteers 😊
