

We are near capacity now with 98 Children and 23 full and part time staff, we have a concern over the new development and the strong possibility of having to turn children away, the preschool site has been extended as much as possible leaving only the gables as an option for the future,

We have just about got back to normal after our lightning strike and I would like to thank the Primary school for their hospitality and the Cullompton fire and rescue service fore their very quick response.

Recently we have had Ofsted inspections the Gables Nursery were rated outstanding and the Preschool good.

Moving onto the future we are shortly having solar panels fitted to the gables and hope to have the centre courtyard covered in October after seeking planning and obtaining permission from the free holder (this Council)
