

WILLAND PARISH COUNCIL

Fixed Asset Register

Local Councils must maintain an Asset Register to ensure fixed assets are appropriately safeguarded. Once recorded on the Asset Register, the value of assets must not change from year to year until disposal. Concepts of depreciation and impairment adjustments are not appropriate for local councils. Insurance value is a useful benchmark and is included here for information but does not officially form part of the register.

An Asset Register has four main purposes.

1. It forms a basis for completion of box 9 in the 'Annual Return'.
2. It informs decisions on risk and insurance issues.
3. It provides information on the age and potential lifespan of certain items.
4. It provides assurance of the continued existence of Council's property.

This Asset Register is set out in sections, primarily based on Play Area and Open Space Locations. Other sections cover miscellaneous assets not located within specified areas.

The **Notes** column will include general notes and also be used to record damage/repairs/maintenance etc.

UPDATED:- Oct 2025

Bus Shelters
